

CONNECT-AND-GO MEETINGS FROM ANYWHERE

TRUE COLLABORATION THROUGH REAL-TIME WIRELESS PRESENTATION

Enable users - whether in the room or remote - to share content seamlessly and professionally from their own device, with Coalesce. It combines wireless display, video conferencing, remote viewing and screen sharing technologies that make meetings shorter and more productive.

With its wealth of functionality, adaptability and ease of use, Coalesce addresses the needs of smaller companies with remote workers and of larger companies that host meetings in many different rooms, offices and spaces.

COALESCE™ PROFESSIONAL (WC-COA-PRO)

Designed to present to or look in on a meeting remotely.

COALESCE™ MEETING PLACE EDITION (WC-COA-MPE)

Designed for an in-room wireless presentation experience

MODERATED CORPORATE COLLABORATION

Coalesce lets meeting leaders start in-room sessions with a click on a browser extension. The moderator functionality offers meeting control from any device.

MULTI-DEVICE COMPATIBILITY

Use a laptop, tablet or smartphone and connect via Windows client, Chrome web browser, Apple Airplay or the free Android/iOS app.

BUILT-IN WHITEBOARD

Sketch out ideas, take notes, annotate to highlight a point and share it with the team.

REMOTE VIEWING

Users view the meeting remotely as though they are in the room.

ENTERPRISE-LEVEL SECURITY ENCRYPTION

The configurable, robust multi-layer protocol includes high bit length encryption and a PIN option.

CENTRAL DEPLOYMENT & MANAGEMENT

Easily configure and deploy Coalesce Professional for an enterprise environment via web-browser interface.

SMALL MEETING ROOM CONFIGURATION

SPACES WITH 1 DISPLAY AND 2-4 SOURCES

BOARDROOM CONFIGURATION

SPACES WITH 1-2 DISPLAYS AND 8-12 SOURCES
